

Role: Graduate Engineer

Required by: ASAP

Location: Multiple

Duration: Permanent following 6-month probationary period or extension thereof

Salary: Competitive

Glan Agua are seeking graduate engineers to join our engineering site teams throughout Ireland and UK. The role will require graduate engineers to work as part of a team and also to carry out tasks individually. The majority of the work assignments will be based on-site for career progression and full understanding of the company's works and for observation of the implementation of health and safety on-site and use of the latest technology products/equipment.

Main responsibilities:

- Assisting the Project Engineers with the Day to Day challenges on-site
- Assisting Project Engineers with Site Surveying and Mapping
- Attending Site Production Meetings
- Liaising with Clients, Statutory Bodies and 3rd Parties
- Assisting the Project Engineers with the drafting of Method Statements
- Carrying out take-offs, for the procurement of materials which are required for the project
- Completion of Health and Safety Inductions and Filing Records on site
- Assisting the Project Engineers with the Site Management of sub-contractors, suppliers, etc.

Requirements:

- Degree in Mechanical, Civil, Electrical or Environmental Engineer

How to Apply:

- To apply for a position please send CV and cover letter to hr@glanagua.ie.
