Senior Project Manager

Glan Agua is an award-winning and innovative contractor providing project solutions for the water and wastewater industry including design, construction, commissioning, operation and maintenance.

With strategies in place to deliver our current backlog to an exceptional standard and further grow the business in Ireland, Glan Agua is seeking to appoint a SENIOR PROJECT MANAGER. This is a great opportunity for an ambitious and driven individual to join a growing business.

Roles and Responsibilities:

- Ensuring the highest standards of safety and environmental protection are consistently maintained, and strive to out-perform standard practice at every opportunity
- Ensuring that quality throughout project delivery is maintained and meets the business policy and exceeds client expectation
- Leadership of the assigned project delivery team including Site Management and Supervision staff, the Procurement team, the Commissioning team and the Design team
- Detailed understanding of the project scope and active management of change from this scope utilising the contractual mechanisms set out in our signed contracts.
- Coordination and managerial responsibility for the design, procurement, sub-contract packages of work, DfMA/OSB, commissioning and handover process;
- Maintain a presence on site during the construction phase, ensuring that day to day operations are proceeding in alignment with the programme and budget
- Ensuring that the programme and budget are central to decision-making during the coordination and management of project deliverables
- Active participation in Client meetings as the lead representative of Glan Agua
- Ensure procurement is progressed in line with the project programme/schedule;
- Ensure supply chain value is achieved through a competitive tendering process and continuous challenge
- Maintain an oversight on all technical aspects of the project, and ensure the project team have a clear and consistent understanding of the technical deliverables
- Continuous liaison with and coordination of project support staff including SHEQ, Planning, Commercial
- Report to the Contracts Manager both on an informal ad-hoc basis and on a formal basis focussing on agreed KPI's and key deliverables

Experience/Qualifications Needed:

The right candidate will be able to demonstrate the following key experience necessary to fulfil the requirements of the role:

- At least 5 years in a Project Manager role in the Water Industry, preferably with a Tier 1 contractor
- A mechanical or electrical based academic qualification, preferably degree level

Personal Attributes / Values:

The following are the key personal attributes and values we are looking for;

- Driven individual
- Proactive / can-do attitude
- An organiser who can coordinate on multiple fronts
- Structured thinker
- Client-focussed
- Facilitator of innovative thought and ideas

What we offer you:

- Competitive Salary
- Package and benefits (Car, healthcare etc)
- Competitive employer pension contribution
- Competitive performance-based bonus

How to Apply:

- To apply for a position please send CV and cover letter to hr@glanagua.ie.
